

POWER GRID RESOURCE RESUPPLY RATE PLAYER TABLE CARDS

With this document you can create for each player a reminder card of the re-supply rate for their current game. This can be done for every map released so far according to player number. I did this because the re-supply of resources affects strategy and game play and speeds up game play. Print on card and you will have:

1. Two 2 player cards, three 3 player cards, four 4 player cards etc... per map.
2. The re-supply numbers for the specified number of players playing.
3. Colours of the re-supply numbers and resource on the card matching the colour of the gameboard's resource pieces (original pieces).

Format of cards:

1. Cards that you might want back to back (b2b) for printing have **b2b** with the page numbers needed to be printed.
2. Each card should be approximately the same size as the Power Plant Cards.

1

If you find errors in the document, [click here](#) to go to BGG and post a comment. I will do my best to change the error. Germany / USA and France / Italy use the same resource resupply rates; so some options have been provided for the 2 most common maps. Click the links in the contents.
